Kuffler,

It looks like you didn't send this to them. I was just confused because the note is addressed to Doug.

Tom.

Hi Doug,

The enclosed outlines a list of the documentation our Q&A area would need to see following the design phase of the project.

2041136503

This documentation was absolutely necessary for the project, as it is with all PM projects. It was also clearly outlined in the RFP as well as by Tom.

Media Circus needs to understand and execute (or make sure it is executed) all of the documentation on it. The alternative is an internal Q&A review and holding payments until documentation is forthcoming.

MRK
